Office 365 Migration

Moving to Office 365 enables unparalleled productivity and savings

Much of your business's intellectual property resides in email, and the collaboration features inherent in Office 365 are a great way to unleash your business to run at the speed of the cloud. But the technical complexities, risks, and potential disruption during the migration cause many businesses to delay their move.

Complex to plan, configure, and execute → **Risks of data loss and unforeseen issues** → **Email downtime, business interruption, or end user confusion** → **Office 365**

We remove the uncertainties

A comprehensive approach to bring your business to Office 365

We migrate from virtually all mainstream email systems

Exchange
- Email signature blocks
- Inbox rules
- Calendar permissions

POP3/IMAP
- Client-side Email
- Client-side Contacts
- Client-side Calendars

Google
- Options for labels
- Move to folders
- Map to categories

Office 365
Automated removal and re-adding of the vanity domain streamlines the switch to the new Office 365 tenant.

And we migrate everything needed for business continuity

We migrate server and local data, as well as all of your unique employee experiences and settings. All the productivity of a cloud-based email system – with all that was good in the system you came from.
