

# DARK WEB MONITORING (DWM) Frequently Asked Questions

**Breach**  **Secure Now!**

Add Dark Web Monitoring to your  
Partner Subscription, available  
in blocks of **10 domains**.

✓ Low-cost, high-profit  
solution

✓ Easy add-on to your MSP  
offering

✓ Effortless rollout with no  
software

## WHO GETS DWM?

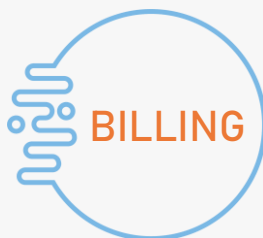

- Each block purchased gets you 10 domains to monitor and allocate at your choosing. Easily enable Dark Web Monitoring for your Unlimited Training Clients with the push of a button.
- All new and existing Breach Prevention Platform (BPP) clients – including your own internal organization – receive Dark Web Monitoring on up to 3 domains each at **no additional cost**.

- ✓ Dark Web Monitoring management portal
- ✓ Human Intelligence-backed data from InfoArmor

- ✓ Real-time updates sent to clients and end-users (optional)
- ✓ Client-facing portal gives access to their Dark Web Status, anytime

## WHAT DO I GET?

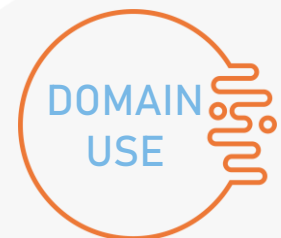

## BILLING

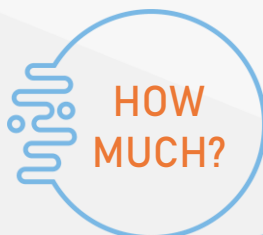

- **Where can I upgrade?** Inside the Partner Admin portal, [here](#).
- **How am I billed?** Cost will be added to your monthly bill upon purchasing.
- **Do I have to be a partner to purchase?** Yes, you must first have the Partner Subscription for access to Dark Web Monitoring and the BPP.

**Can I reallocate licenses?** There are two ways to free up a license:

1. **Upgrade** a client from Dark Web Monitoring to the BPP.\*  
\*This complete solution is strongly suggested as continuous remediation is key for any organization's end-user security.
2. **Deactivate** a client from the PII-Protect portal.

## DOMAIN USE

## HOW MUCH?

Add Dark Web Monitoring to your Partner Subscription and **bring the dark web to light**, today!
