BENEFITS

HIGH PERFORMING

Reduce latency and jitter with fast, direct and symmetrical bandwidth to power your business.

RELIABLE

Experience dedicated and guaranteed internet connectivity to all your key destinations.

SCALABLE

Add more bandwidth to your service with flexible 1G, 10G and 100G ports for effortless customization.

FEATURES

AGGREGATE BANDWIDTH

Simplify and optimize internet costs by sharing bandwidth across multiple locations and protect against individual location peaks with burstable options.

NEVER-OVERSUBSCRIBED

Realize reliable, high-performing bandwidth that is never oversubscribed. Zayo owns the underlying fiber network and manages the utilization of capacity to prevent oversubscription.

DEDICATED CAPACITY

Never share your bandwidth with our full line rate. Access to entire port capacity, dedicated to your business with the flexibility to add more bandwidth.
