

RINGCENTRAL FOR MICROSOFT TEAMS

RingCentral for Microsoft Teams brings robust, enterprise-grade communications and collaboration capabilities to the Teams app. With the Microsoft Office 365 integration installed, users can make **RingCentral voice calls, send SMS messages, and initiate video meetings in Teams**. With the RingCentral bot, users can leverage RingCentral to post meeting and call details in a Teams conversation. Streamline workflows and work more productively across your Teams workspace with RingCentral for Microsoft Teams.

FEATURES

Simply @mention the RingCentral bot in a Teams conversation to bring up a host of functions:

- **@RingCentral Call** posts the RingCentral conference call dial-in and access code. Users have the ability to click to join the call from the conversation and access global dial-in numbers if needed.
- **@RingCentral Meet** posts the RingCentral Video meeting ID and dial-in number. Users have the ability to click to join the meeting from the conversation and access global dial-in numbers if needed.
- **@RingCentral Help** brings back the RingCentral bot menu and lists bot commands.
