

Enable calls in Microsoft Teams using your existing PBX phone system or SIP Trunks.

Call2Teams™ is a simple add-on to Office 365 that connects Microsoft Teams to any PBX phone system or SIP Trunk in minutes, allowing the making and receiving of calls on any device using the Microsoft Teams App.

What is Call2Teams™?

Call2Teams™ from Qunifi is a cloud service that connects Microsoft Teams to any existing on-premise or cloud PBX phone system or SIP Trunks. There's no hardware or software to install and it can be set up in minutes. Now you can bring all users under one collaboration platform by using Microsoft Teams for collaboration, messaging, and voice across all devices.

Full Teams experience

- Add calling to teams to increase productivity
- Work on desktop and mobile to free your workforce
- The native Teams calling experience is familiar to users

Get the best of both worlds

Simple deployment

- Keep your existing phone services with all the features you rely on
- No hardware or software to install
- Only enable the solution for users and groups that need it

Can be deployed in hours across the globe

Enterprise level service

- Global infrastructure in Microsoft Azure
- Around the clock monitoring and support
- Enterprise grade encryption and security built-in

Low risk, non-disruptive, cost effective.

Why customers use Call2Teams™

- Enable calling in Teams without needing any hardware or software
- Use your existing phone system PBX, SIP Trunks, numbers and facilities. No disruption. Any call center or compliance features stay as they are
- A simple monthly subscription cloud service that can be delivered to selected users

"Call2Teams™ enabled us to deliver a great calling experience to our Office 365 Teams users without compromising on our current call management tools. And it was set-up in record time."

Tarryn Magistrelli. Finance & Operations Manager, Futerra Sustainability Communications

With Call2Teams™ you can deliver a voice solution that combines Unified Communications and Teams collaboration

Call2Teams™ brings Microsoft Teams to life

- Voice enabled collaboration is driving in excess of a 50% increase in collaborative work
- 80% of employee time is spent collaborating and 62% connect to meetings using mobile phones
- Business goals are more quickly achieved when people enjoy working together

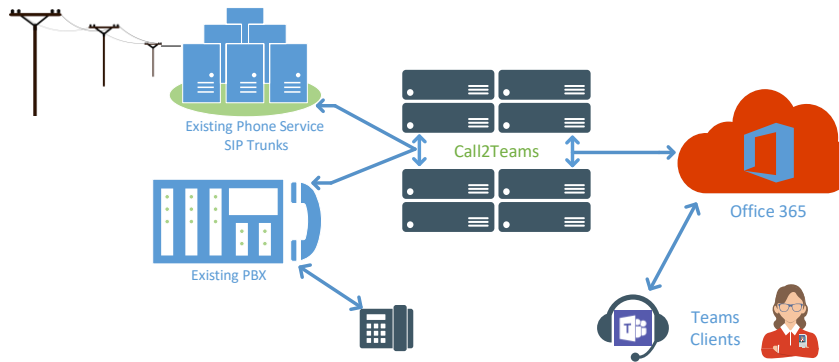

Preserve the current voice investment

- Current voice platforms deliver wide-ranging business services to many types of users
- Leveraging the current investment to power Office 365 saves on disruptive, costly new infrastructure and services
- Making Microsoft Teams integrate with current business processes can multiply the benefits of collaboration and integration

Simplified IT in the cloud delivers flexibility

- Increase working flexibility and efficiency - 72% of workers will be working remotely by 2021
- Reduce the number of applications needed for users
- Lower support costs and higher productivity

Bring calling to Teams

The quickest and easiest way to enable calls in Microsoft Teams.

Why not give it a try?

- Redefine how your current voice platform is used
- Call2Teams™ can be evaluated without disruption
- Evaluate the service free for 30 days for up to 25 users
- Discover the boost your team-workers get from a new way of collaborating

Provide enhanced collaborative tools for your teams to deliver a true productivity boost for your projects

- Leverage existing voice services to power the latest Microsoft Teams features
- Streamline the number of tools your users need to use, reducing cost, administration and training.
- Take advantage of the latest enhanced communications to save costs and increase the level of service your users enjoy

Why Qunifi?

We're passionate about Unified Communications. We work with our customers to reimagine the world of business communications and collaboration; we consistently drive progress, innovation and creativity at a rapid pace with the shared goal of helping business stay ahead of the curve when it comes to taking advantage of the latest technology, so business can be done more efficiently and effectively.
