

GET **UNIFIED VISIBILITY** ACROSS YOUR ENTIRE STACK

Unleash Your MSP to Operate at 10x!

The number of systems you manage has grown and many of them are going unseen, unmanaged and unsecured.

Liongard is the **only** platform that unifies your cloud, network, apps, services and endpoints in one place – giving you an **edge** over the competition.

LIONGARD CORE

UNIFY

Aggregate data from 70+ systems in a single pane of glass

AUTOMATE

Minimize manual effort required to operate and scale your MSP

ALERT

Get custom change notifications to proactively secure systems

ENDPOINT VISIBILITY

Extend Liongard's unified visibility to include deep insights into the endpoints you manage.

WINDOWS WORKSTATION INSPECTOR

Get deep visibility without the risk of admin-level permissions.

WINDOWS SERVER INSPECTOR

Set security standards, manage inventory, and review policies with ease.

LINUX SERVER INSPECTOR

Access critical information for Ubuntu and Red Hat distributions.

Monitor, manage and report on:

- Patch status
- Antivirus
- Firewalls
- Network diagnostics
- Hardware inventory
- Software inventory

- Inventory
- OS
- Remote Desktop Protocol
- Patches
- Password Policies
- User & group permissions

- Local permissions
- Privileged users
- Major build versions
- Resource utilization
- Infrastructure information
- Services inventory
