

Splashtop Enterprise End-User

Best-in-class remote access solution.

Enable employees to work remotely with unattended anytime computer access.

Key features and benefits

- **High Performance** – 4K streaming at 40fps and iMac Pro Retina 5K streaming at low latency. Reduced CPU utilization provides more headroom to process applications. Settings can be fine-tuned to get optimal performance. Optimized encoding and decoding engine takes advantage of the latest hardware acceleration from Intel, NVIDIA, AMD.
- **Secure Connections** – Secure infrastructure, intrusion protection, SSL/AES 256 bit encryption and other advanced security features.
- **Broad Device Support** – Remote into your Mac, Windows or Linux computer from any Mac, Windows, iOS, Android, or Chromebook device.
- **Unattended Android/ Rugged IoT Support** – Splashtop Enterprise provides remote access and remote support to any Android device from any computer or mobile device even without an end-user present. Android devices include smart phones, tablets, POS devices, kiosks, set top boxes and more.
- **Multi-Monitor Support** – Remote into multiple monitors connected to your workstations.
- **Scheduled Access** – Schedule times for when users can remotely access computers.
- **In-session Features** – Users can transfer files, chat, record session, and more.
- **Microphone Passthrough** – Users can transmit input via local microphone to the remote computer as the microphone input.
- **USB Device Redirection** – Redirect a USB device (smart card reader, security key, stylus/HID device, or printer) on your local computer to the remote computer.
- **Granular Permissions** – Provide granular role-based and user/user group-based permissions.
- **SSO/SAML Integration** – For ease of deployment and centralized authentication, Splashtop Enterprise integrates with Single Sign-On identity providers.
- **Group-based Permissions** – Assign permissions by user/computer groups.
- **Group-admin** – Create group-specific admins.
- **Centralized Admin Console** – IT admins can easily manage remote access to devices through a centralized console.

Who benefits?

- Users can access devices and data securely from anywhere with our high-performance remote access solution.
