OTAVA® Disaster Recovery as a Service
POWERED BY VEEAM
Prepare for the unexpected.

OTAVA® DRaaS powered by Veeam is a reliable, affordable, scalable, and compliant solution to the many unexpected disruptions facing businesses today. Avoid catastrophic data loss due to natural disasters, hardware failures, cybercrime, human error and more; and restore within minutes – not hours – to keep downtime (and lost revenue) to a minimum. Choose from flexible managed and self-managed options, and enjoy easily trackable testing to validate your high-performing RPO and RTO's. Recover confidently from whatever tomorrow may bring with OTAVA® DRaaS powered by Veeam.

Why OTAVA® DRaaS?

- Recover VM's and databases in minutes.
- Recover data to a point seconds before an attack.
- Full or partial site recovery
- Transparent networking
- Managed and self-managed options

What can you expect from OTAVA® DRaaS powered by Veeam?

- **Minimized Down-Time**
  Recover and restore workloads in minutes to quickly resume normal operations, reducing potential loss-of-revenue.

- **Increased Business Resiliency**
  Improve your ability to recover quicker from a disaster or cybercrime, and strengthen your business continuity posture.

- **Cost Optimization**
  Leverage custom retention policies for each unique set of data to fit specific RTO and RPO objectives and improve IT spend.

- **Centralized Platform**
  A centralized SaaS platform to deliver backup and recovery of VMs, SQL Server and SAP HANA databases

- **Peace of Mind**
  Rest easy knowing your mission critical databases are protected and available
